

## **Announcement of Activities:**

The department has already prepared the schedule of co-curricular activities for the academic year 2023-2024. The themes for the FDP, Seminar, Workshop and Conference will be generally covering the recent development and trends in the field of various specializations of civil and environmental engineering. The themes, as a routine, are notified with sufficient time prior to the event after an exhaustive discussion and deliberations of departmental faculty members, student representatives and potential resource persons across the nation and outside depending on their availability and willingness.

- Faculty Development Programmes (FDPs) during mid of the December 2023
- Conference during October-November 2023 after the Puja vacation
- Seminar during late January 2024
- Workshop during last week of February and 1<sup>st</sup> week of March 2024
- Two Invited Talks in any working Saturday every month. The topics will be generally covering concrete technology and geotechnical engineering. The talks are likely to be delivered by eminent personnel associated with ACI-India Chapter Mumbai and IGS New Delhi.
