ABOUT THE SEMINAR

Food systems worldwide are facing unprecedented challenges arising from climate change, food insecurity, biodiversity loss, waste generation, environmental degradation, and changing consumer preferences. The transition towards safe, sustainable, and circular food systems has become imperative for ensuring food security, public health, ecosystem conservation, and sustainable economic growth.

This International Seminar cum workshop aims to bring together academicians, researchers, policymakers, industry, experts, entrepreneurs, students, and practitioners to discuss innovative solutions, emerging technologies, policy interventions, and best practices that contribute to resilient and sustainable food systems. By addressing critical challenges in food safety, sustainability, and circularity, the seminar seeks to contribute to the achievement of key United Nations Sustainable Development Goals (SDGs) - notably SDGs 2 (Zero Hunger), 3 (Good Health and Well-being), 13 (Climate Action), and 15 (Life on Land) - While supporting the Government of India's transformative vision of *Viksit Bharat@2047*. As part of this event participants will have the opportunities to attend specialized certification training by qualified experts. These sessions are intended to provide practical knowledge and professional competency, while also fulfilling the requisite requirement and/or eligibility for further FOSTAC training under FSSAI, as applicable.

SEMINAR OBJECTIVES

To explore innovative approaches for sustainable and circular food systems.

To promote research on food safety, food quality, and public health.

To discuss climate-resilient agriculture and ecosystem sustainability.

To examine food waste reduction and circular economy strategies.

To encourage academia-industry collaboration in food innovation.

To facilitate publication of high-quality research in reputed journals and conference proceedings.

To give opportunities to the local students, researchers and business persons for professional training certifications
